

Hold my Hand

Pre-owned cars with no hidden glitches? AA Autobay to the rescue

Nobody buys a used car without getting an opinion from a good friend, right? And there's a good reason for that. A pre-owned car should be approached with a good deal of caution, even suspicion – and an even bigger amount of plain hard work, because you want to give it a thorough and objective assessment. But chances are that not even your best friend will want to hold your hand through all the checking, questioning and weighing up. The AA, however, will. Known for the most reliable roadside service and as your trusted guardian for thoroughly assessing the used car you're so wanting to buy, the AA is now also your reliable online portal to private sales of pre-owned cars – through the newly established AA Autobay. Register with AA Autobay and you'll have access to thousands of pre-owned cars that have been thoroughly assessed. Once you find one that catches your eye, AA Autobay will arrange a safe test-drive, provide information on the car, and tell you what amount similar vehicles have been sold for – all the info you need to make your buying decision. It's a chance to get to the bottom of all those second-hand car worries: has it been in an accident, is it a stolen car, what about the service history? Designed from the ground up to be the safest and best way to buy the pre-owned vehicle of your dreams, AA Autobay will facilitate the sale and handle all the purchasing paperwork. Licencing and registration can also be arranged. Just hand over all your concerns and, pretty soon, AA Autobay will hand over the keys to your new car.
